Thanks. The homeland security center he mentions is part of ORD. That said - they do link up when needed.

Just an FYI on the Homeland Security issues. I wasn't aware of ORDs efforts. Hope you and OHS are.

Thanks Tom. If he reached out to OW that's great and I am sure Janet or Dennis can talk about the CPP related issues and see what's what.

To follow up I Wanted to share Lek's response. He will focus on ORD Homeland Security collaboration. I think we are good.

Also, he will check in with all appropriate folks.

Subject: Re: Important

Tom,
Three quick points:

- 1) The nature of my talk will focus on the homeland security research collaboration that exists between EPA/ORD and DOE INEL. This is work that our National Homeland Security Research Center leads.
- 2) The comments that I will make regarding energy/water nexus are brief and are those that were provided by OW as a result of our reaching out to them. I will have to track down the specifics on where in OW.
- 3) While Congressman Simpson is scheduled to make comments one of the mornings (the conference is in his home district), I'm not sure whether there are any other members who will be attending. There are no planned meetings with members or staff while I am there.
- 4) I don't expect to answer any question that go beyond Agency research broadly and the homeland security research collaboration with INEL specifically.

I will reach out to Janet, Laura and Ken and Dennis

Lek

Administrator,

I am pleased to present our ORD/OSA
weekly report.

Much of our effort this week continues to be
focused on the Gold King Mine release.
Scientists across ORD have stepped up to
provide their expertise. ORD staff are

covering the ORD desk at the HQ Emergency
Operations Center (EOC) providing data
interpretation and science translation
support.
